Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 12-28, drawn to a process for bonding substrates with a hotmelt adhesive.

Group II, claim(s) 29-30, drawn to a process for applying hotmelt adhesive.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the only common feature between Groups I and II is that both involve hot melt adhesives. This common technical feature is not special because hot melt adhesive are notoriously well known and conventional. Groups I and II lack the same or corresponding special technical features.

5. A telephone call was made to Kimberly Hild on 12/28/04 to request an oral election to the above restriction requirement, but did not result in an election being made because the number of record belongs to someone else.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
